

## Interstate 494 in 2016 Long-term Detours

Construction crews will work from mid-April to late fall reconstructing pavement, adding a third lane on northbound Interstate 494, and building noise walls.

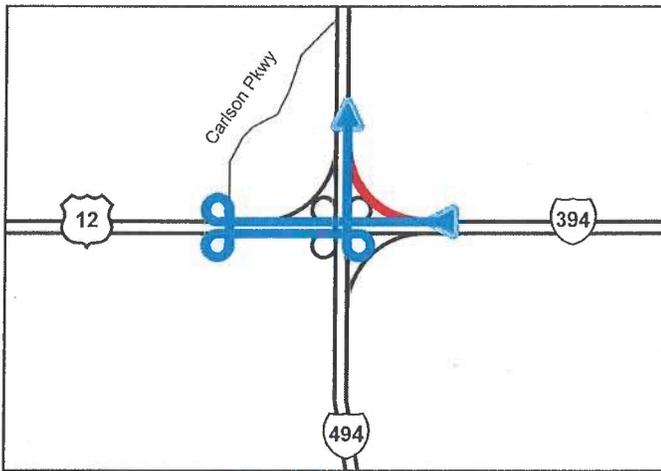

The following long-term detours will be in place for the duration of the project, except the East Fish Lake Road detour. These long-term detours will last for a combined total of 55 days.

All I-494 traffic between I-394 and I-94/694 will shift to the southbound side of I-494. Two lanes of traffic will be open in each direction. Please plan ahead, allow for extra travel time and pay attention when driving through the I-494 work zone.

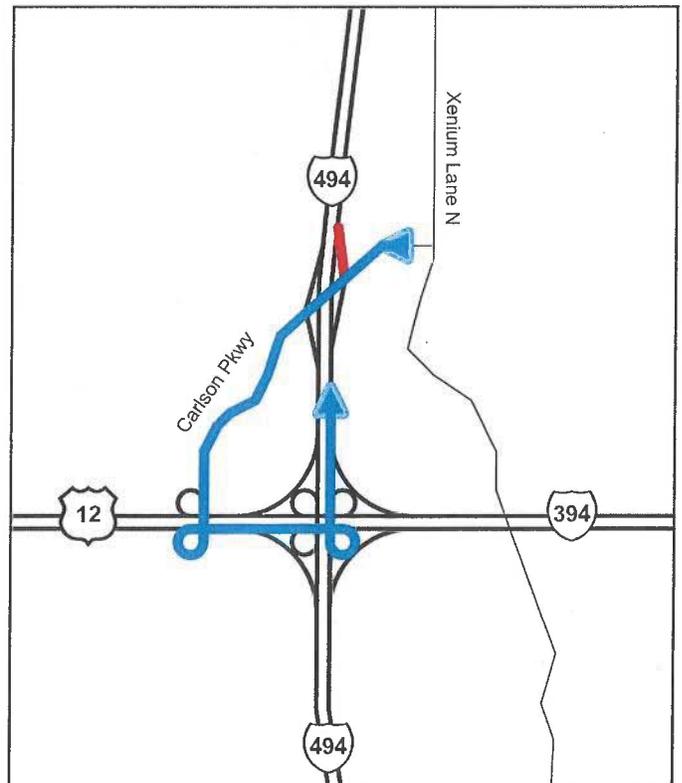

### Carlson Parkway to southbound I-494

Carlson Parkway to eastbound I-394 to southbound I-494

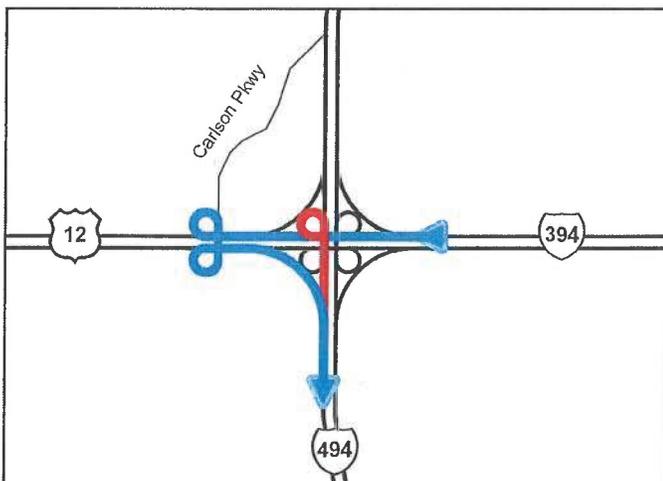

### Westbound I-394 to northbound I-494
