

MANAGE EMERALD ASH BORER BEFORE IT MANAGES YOU

WHAT TO EXPECT

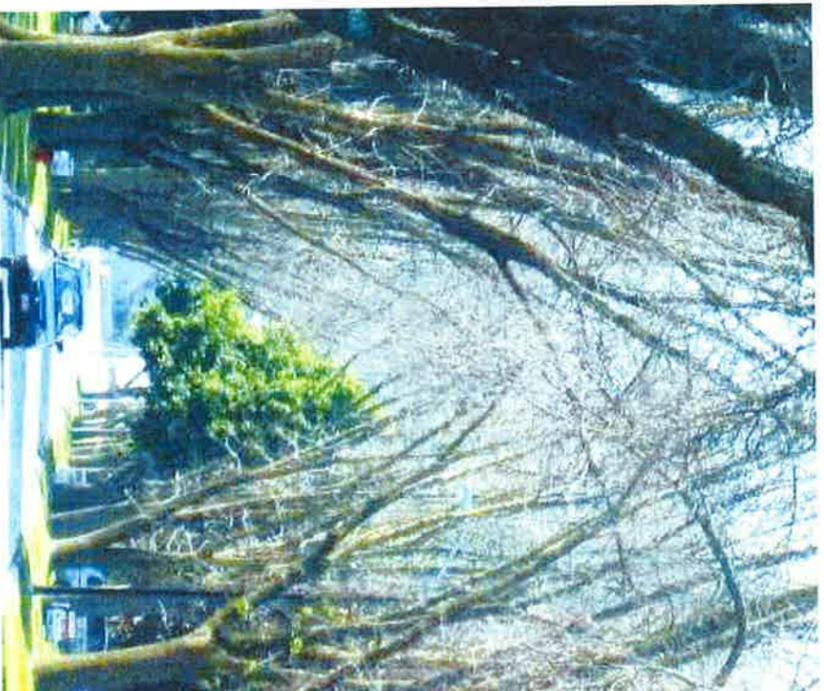

Monday, May 6, 2013

Maple Grove
Government Center
Emergency Operations
Center (EOC) - lower
level

12800 Arbor Lakes
Parkway, North
6:00 pm - 8:00 pm

What
Impact
Will EAB
Have On
You?

Toledo street before and after EAB

"THE INFORMATION IS EYE OPENING. IF YOU HAVE ASH TREES,
YOU NEED TO START PLANNING NOW."

- BARB NORTHWAY, CITY OF PLYMOUTH

"EAB is not like Dutch elm disease! We will lose
more ash trees in the next 10 years than we lost
to Dutch elm disease in 55 years."

- CITY FORESTER, OAKVILLE, IL

"IT (THE BORER POPULATION) DOESN'T EXPLODE INSTANTLY.
IT TAKES SOME TIME TO BUILD UP. BUT THEN IT EXPLODES
EXPONENTIALLY. THERE ARE 60 MILLION DEAD ASH TREES IN
SOUTHEAST MICHIGAN ALONE."

- DEB MCCULLOUGH, PROFESSOR FORESTRY ENTOMOLOGY, MICHIGAN STATE
UNIVERSITY

"You Need To Take Action Now."

- CHAD TINKEL, SUPERINTENDENT OF FORESTRY, CITY OF FORT WAYNE
