SLALOM COURSES

A regulation length slalom course is normally over eight hundred (800) feet long, and because it restricts the public use of such a large area, the following rules are to be followed:

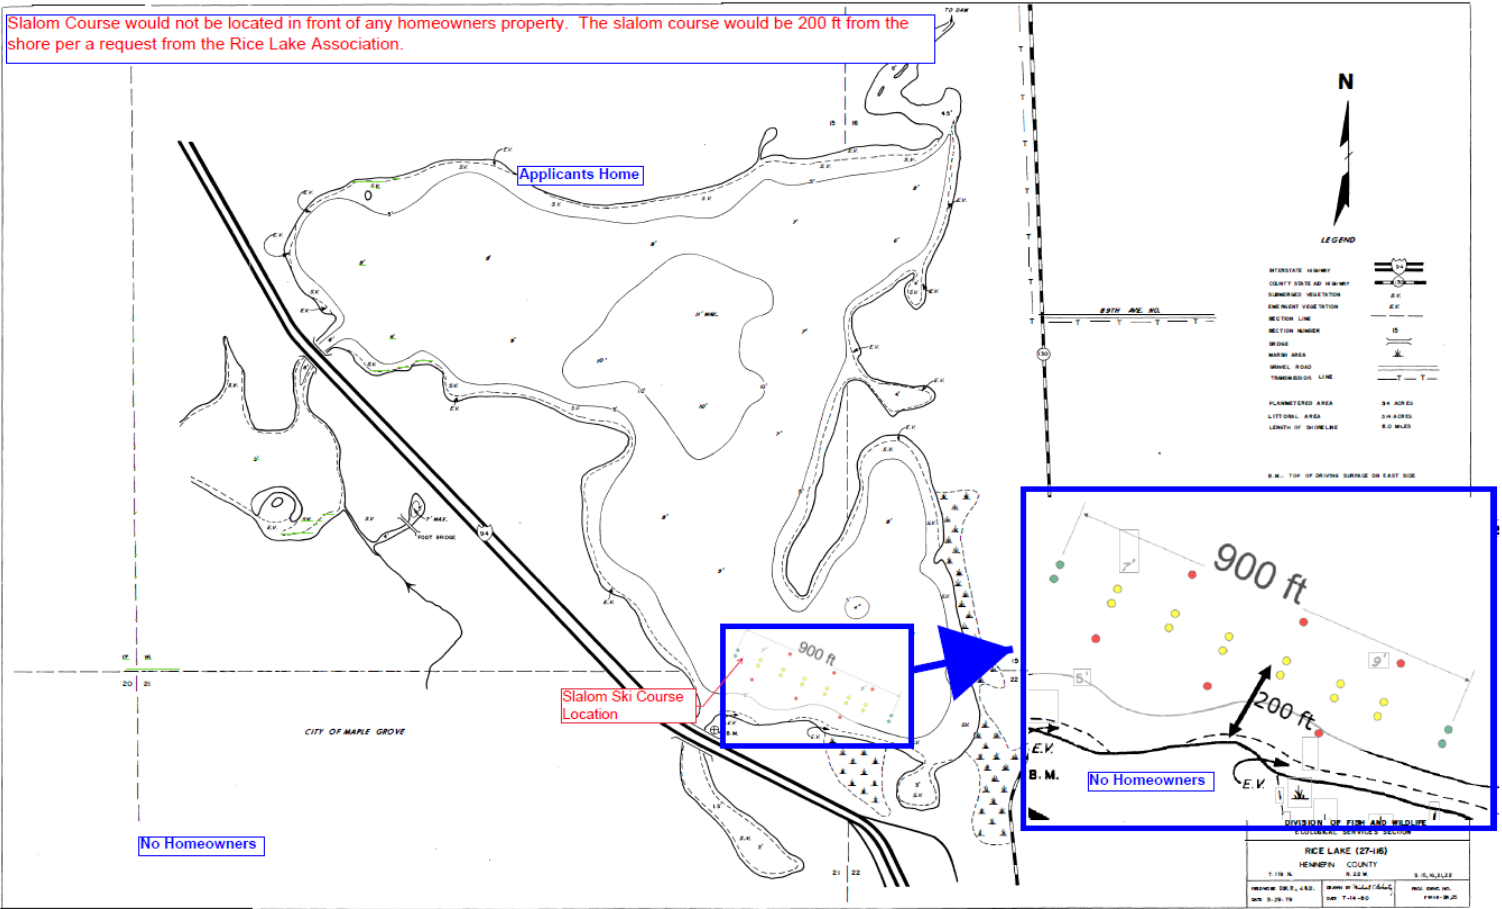

1. Property owners the course directly affects must give written permission.
2. Surface floats must be submerged or removed when the course is not in use.
3. The County permit number must be displayed on the end floats.
4. The course cannot exceed 900 feet in length.
5. The course cannot be a navigational, operational or environmental hazard.
6. The permit will be renewed annually and the previous year's complaints will be reviewed.
7. The course and boat path can be no closer than one hundred (100) feet from shore.
8. A detailed to scale map of course, water depth and boat path must accompany application.

I,  _____, hereby acknowledge that my temporary structure meets the above regulations.
