With the application, the applicant shall provide proof satisfactory to the City of a policy or Certificate of Liability Insurance for the permitted obstacle, which insurance shall, as a minimum, meet the following requirements:

1. A minimum amount for each occurrence and for each year of \$1 million dollars (\$1,000,000) of comprehensive general public liability insurance;
2. In effect during the entire period of the permit;
3. Endorsed to show the City of Maple Grove as an additional insured;
4. No cancellation for any cause can be made either by the insured or the insurance company without first giving thirty (30) days written notice addressed to the City Clerk of an intention to cancel the same;
5. No payment of any claim by the insurance company shall in any manner decrease the coverage provided for because of any other claim or claims brought against the insured or insurance company thereafter;
6. The insurer shall pay to the extent of the principal amount of the policy any damages for death or injury caused by or resulting from the water obstacle for which such permit has been approved including, but not limited to, any such damages resulting from the violation of any law relating thereto.

By submitting this application, I and/or my organization, accept responsibility for the presence, maintenance, use and removal of the water obstacle and agree to indemnify and hold the City harmless from any liability with regard to the water obstacle.

SLALOM COURSES

A regulation length slalom course is normally over eight hundred (800) feet long and because it restricts the public use of such a large area, the following rules are to be followed:

1. Property owners the course directly affects must give written permission.
2. Surface floats must be submerged or removed when the course is not in use.
3. The County permit number must be displayed on the end floats.
4. The course cannot exceed 900 feet in length.
5. The course cannot be a navigational, operational or environmental hazard.
6. The permit will be renewed annually and the previous year's complaints will be reviewed.
7. The course and boat path can be no closer than one hundred (100) feet from shore.
8. A detailed to scale map of course, water depth and boat path must accompany application.

I, Charles R Woodson, hereby acknowledge that my temporary structure meets the above regulations.

TEMPORARY STRUCTURE LOCATION DIAGRAM

INSTRUCTIONS: Prepare a detailed drawing of the area in which you propose to place your temporary structure. In certain cases, a lake map with layouts will suffice. Your drawing should encompass the shoreline and lake area in front of your lot and the two adjacent lots. Be sure to include lot lines, docks and any existing temporary structures in front of all lots. Note any landmarks that will assist our inspector in locating your site from a boat. You must also indicate the length of the shoreline between your lot lines (lake frontage) and the distance from shore to the proposed location for your structure. Indicate north with an arrow through the circle in the upper right corner of the drawing. The sketch should show water depths in the area of a proposed ski slalom course. The American Water Ski Association recommends a minimum five foot (5') depth for the operation of a ski slalom course.
