

**To:** Honorable Mayor and City Council  
**From:** Heidi Nelson, City Administrator  
**Date:** July 12, 2022  
**Subject:** July 18 work session

As part of the recent legislative session, a new law was passed that legalized the sale of certain edibles and beverages infused with tetrahydrocannabinol (THC). This new law came as a surprise to municipalities and many legislators. Since its effective date of July 1, the League of MN Cities has been reviewing the new legislation and advising cities on the impact from a regulatory and employment perspective (see attachment). Some cities have begun to draft code amendments to regulate the sale, however none have been adopted as of the writing of this memo to our knowledge. City Attorney Justin Templin will be present for the work session discussion.
